# Retractable Pergola. The Original.

Create All-Year outdoor areas using our best-in-market Retractable Pergolas by gulfshading  
Enclose your balcony, create a winter garden or shade any outdoor area in your house.  
Our Pergolas have the following features:

- Fully motorized retractable pergolas
- Unique glass panels
- High quality aluminum Frames
- 5 years warranty

## Design your own Pergola!

Each of our products is hand crafted and in itself unique. From the canvas to the construction, you can completely customize your product. As well as our wide range of Pergola Series, you can choose from various RAL Colors and a broad range of canvas options.

## Dimmable LED Lighting

Depending on whether you want strong practical lighting, or an atmospheric dimmed ambience, be sure to make use of Palmiyes 3-Lens LED Technology. You can dim the light directly from your Remote Control. Investing in LED technologies is part of Palmiyes contribution to a greener environment.

A long-term investment!

### Sun Protection

Our special blackout FS FLEXY Ceiling Cover provides a Sun Radiance Reduction Factor up to 89% and protects you from harmful UV Rays.

### Rain Protection

The retractable Ceiling Cover is 100% Waterproof and is designed for Rain Protection. Our Waterblock System prevents rainwater entering the enclosed area, and leads it directly to the front gutter for perfect water drainage.

### Wind Resistant

Our products are designed to withstand wind forces up to 11 on Beaufort scale (117 km/h), which makes them the best solution for your project.

### Integrated Drainage

Specifically designed to add a nice aesthetic touch as well as being highly functional, this Integrated Drainage System (IDS) ensures that all water is smoothly drained inside the front pillar.

### Quality Powdercoat

All Powdercoating is being processed in our own production facilities and supervised by our Quality Control System. Our Powdercoating plant is based on the latest technology available.

### Durability

We believe in Durability, and therefore all small parts such as screws, nuts and bolts are made of stainless steel, so they will last long and assure a hassle-free operation of the product.

### CE, TÜV Certified

Distinguished by their design, durability and state-of-the-art detailing, all our products are certified by TÜV, ISO and CE.

### 5-Years Warranty

All our products have up to 5 years guarantee for the construction, motor and fabric. The electronics and remote controls are guaranteed for 2 years.

### Vertical Awnings

Horizontal sun rays can be reduced with a vertical blind. It is a full cassette awning that protects the awning fabric from wind and weather.

Our special see-through fabric creates shade without interrupting the view and provides you the privacy need.

### Glass Enclosure

Enclose your Product with various Glass Systems and create a Wind- and Watertight Wintergarden. By that you can add indoor comfort to your Product and you get an outdoor living room.

### Fabric & Colors

FS Flexy fabric, which is used in textile architecture worldwide, is a light weight PVC-based material. Consisting of 3 layers, it is highly weather resistant, including being fully flame retardant and easy to clean.

For more Ceiling Cover options check out our Fabric Sample Catalogue.

### DOOR SYSTEMS Aluminium Door

This aluminium framed glass door provides a warm, stylish and functional door system. Its robust, yet smooth operation results in a product you can rely on! The high performance seals protect the building from the elements of nature.

Take control of your patio area!

### Awning Systems

We provide many modern awning systems including:

- 1- External Blinds Awnings
- 2- Retractable Awnings
- 3- Drop Arm Awnings
- 4- Cassette Awnings
- 5- Assembled in Kuwait
- 6- Delivered in 1 to 2 weeks

- Reflects Up to 85% of The Heat
- Wireless Control Using Somfy Technology
- High Quality French Fabrics
- 3 Year Warranty

# Vertical Blinds

*Our blinds reflect 85% of the heat and stops it from entering your home through your glass windows. Many indoor blind solutions simply absorb the rays of sunshine, still creating heat indoors.*

*Our Relfex'sol shades, have a metallized face. The solar radiation is therefore not absorbed, but is sent back outside the conservatory. No more heat is created, and your room remains perfectly comfortable!.*

*Vertical roller blind,*

*the Vertigo is intended to equip all windows, skylights and bay windows exposed to sunlight.*

*It measures out the light, preserves privacy and blends in to all décors. The Vertigo decorates all parts of the house: from the conservatory to the living room, from the bedrooms to the kitchen.*

*For more discretion, the high part of the blind can be integrated in a thermo-lacquered box. The Vertigo is fixed between walls, to the ceiling, or on a vertical wall.*

*It is manoeuvred by chain or by motor (radio control optional).*

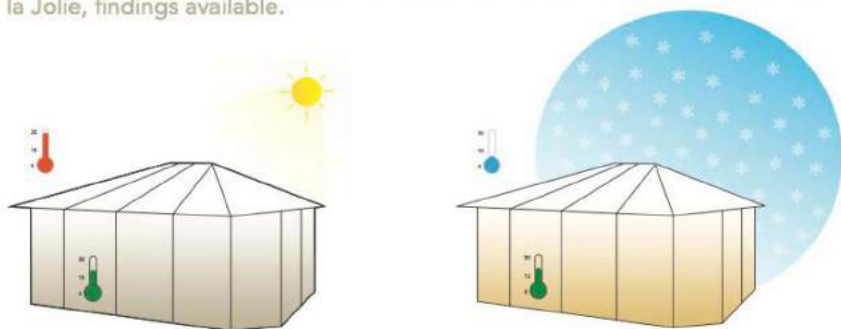

## Anti-heat blinds

## Roof blinds

Solar reflection rate: 85%

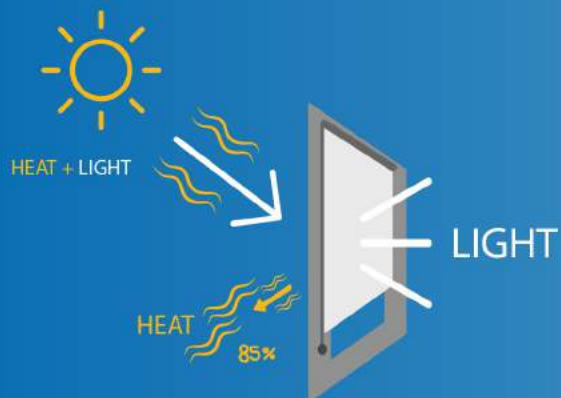

Time	Veranda without blind	Veranda with interior blind	Veranda with external blind	Veranda with REFLEX'SOL BLIND	Air temperature in the shade
2.00 p.m.	72°C	66°C	42°C	36°C	32°C
4.25 p.m.	69°C	63°C	45°C	37°C	32°C

Measurements carried out in 1987 by Maître Malraison, a bailiff in Mantes la Jolie, findings available.

Your cool veranda in the summer

Your cosy veranda in the winter

### Roof blinds Horizontal blinds

*Bateau sun blinds between spans bring elegance and clean lines to the conservatory.*

*Sun blinds in rectangle, triangle or trapezium\* style between spans, highlighting the refinement of the textile and providing solar protection of wooden or aluminium conservatories with tubular rafters.*

*The modules are independent of each other allowing for full control of the light.*

*The blinds slide into the sub-face of the transparent wall. They fold in accordion style.*

*\* Except for the Trisolis, no cutting.*

*The roof blinds can provide effective solar protection for horizontal or sloping glazed surfaces. Functional, our roof blinds allow the light to pass through or protect you from it in all simplicity. Decorative and made to measure, they also offer a meticulous level of décor.*

**Innovative Sail Systems by**  **SOLIDAY**<sup>®</sup>  
Das Sonnensegel

The art of LIVING SPACE

*Providing areas with shade – stylishly and with the perfect touch – is a true art. Soliday create precisely the type of sun protection you have been dreaming of, transforming daily living into a wonderful lifestyle.*

remote	Manual	Roof	Sun protect	UV protect	Wind resistant	Rain proof	Privacy	Height Elevation
								

- Automated or Manual Retractable Sails
- High Quality European Rabrics
- Up 85 sqm of Covered Area in a Single Systems
- 3 Year Warranty

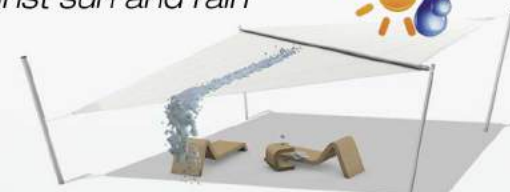

# The art of LIVING SPACE

## Extreme flexibility

Yet another advantage of the SOLIDAY Snap System is its flexibility. It can be mounted on pylons (droppole, stainless steel and aluminium masts) as well as walls etc. And without any elaborate effort.

## Dual protection Against sun and rain

Through the combination of high-quality sail fabric Austrosail Nano and our patented spring-loaded pylons, the SOLIDAY-C and -CS systems also provide outstanding protection against rain! Which means, bad weather is simply no longer an issue for sun-sailers!

## The ultimate in convenient operation...

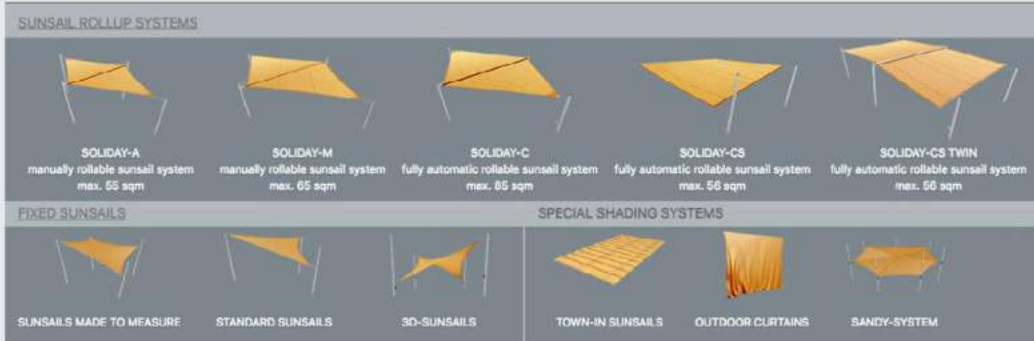

... courtesy of SOLIDAY-C, which is based on a new, patented system solution. By means of radio control, the sail extends and rolls up completely automatically via a diagonal center shaft, making it continuously adjustable in all positions.

*SOLIDAY turns bright ideas into as much as 85 square meters of spacious outdoor loving!*

*It's time to make your biggest dream a reality. how about a new dining and grill area with a lounge, or a spa and relaxation area with a sun canopy*

A long-term investment!

Added safety in the face of sudden gusts of wind and rain squalls, thanks to intelligent pylon technology!

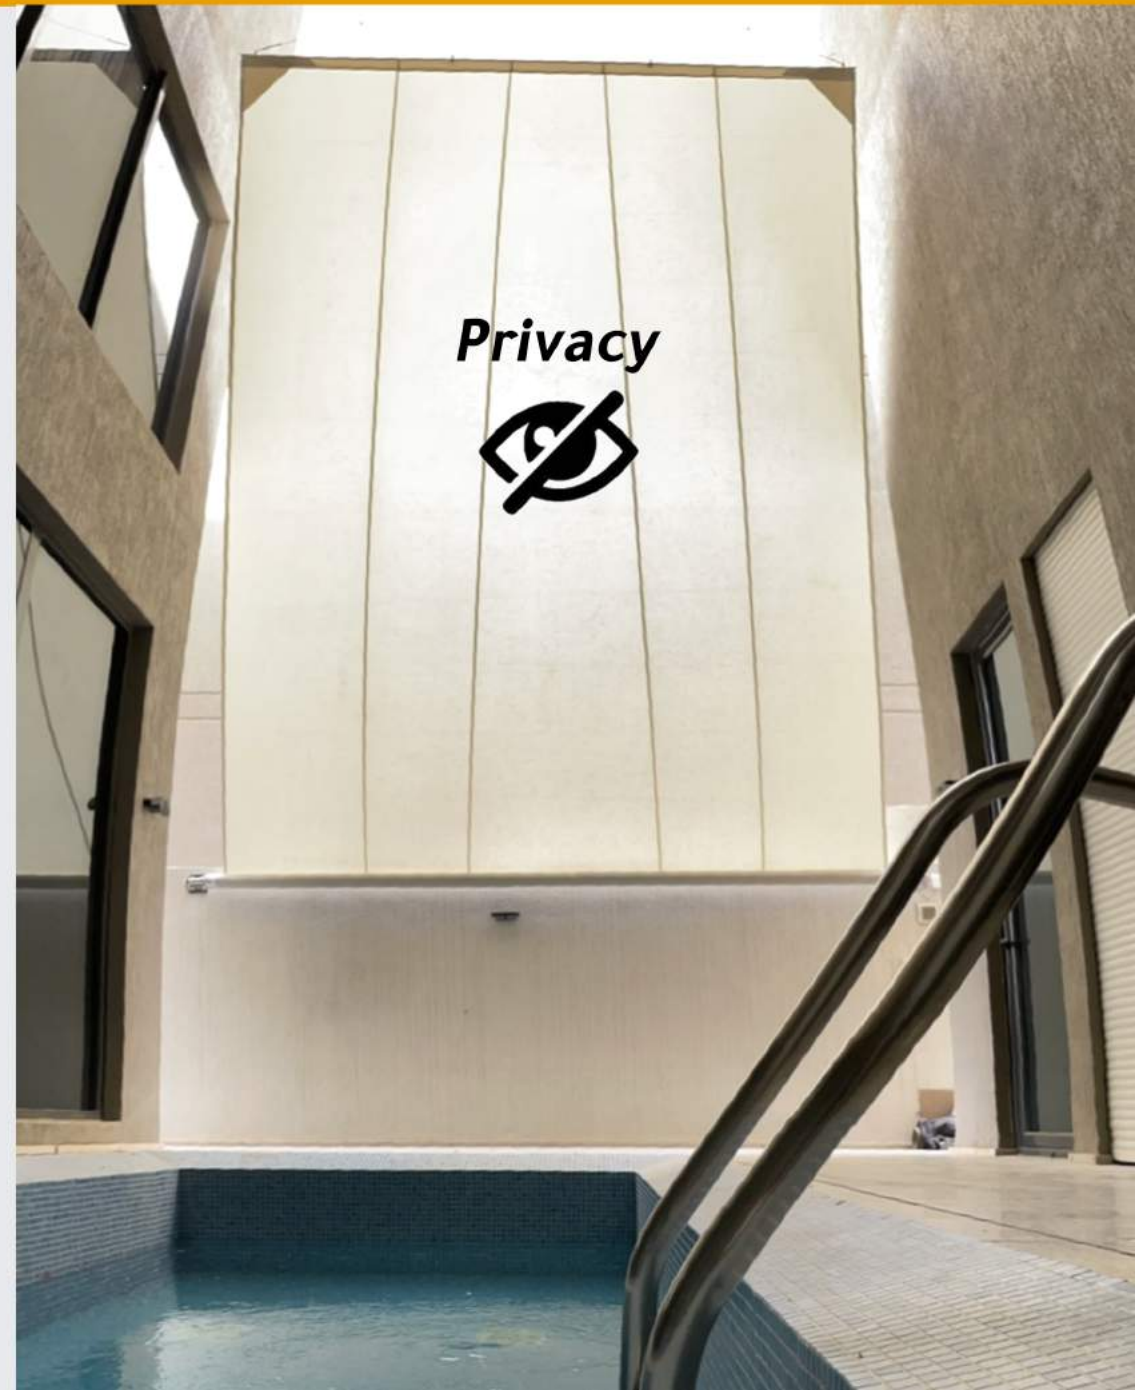

### Custom height adjustment

Clever details make all the difference. With the patented SOLIDAY height adjustment feature, the angle of the sunsail can be individually adjusted to the height of the sun, thus determining the position of the shade. Especially important in late afternoon when the sun is lower on the horizon.

### High-quality Outdoor fabrics

SOLIDAY offers the perfect sunsail fabric for every purpose and all demands in a wide variety of colors, and for whatever the wind or weather might bring. The fabric quality is long-lasting and easy to care for, not only giving perfect protection from harmful UV radiation, but also preventing glare and providing privacy.
